DESIGNER-SPEAK

Inspired by the “element of surprise” and “the vibes you get when you enter a particular place”, Isabelle Vernhes has developed the perfect mantra to style a home. She believes that décor needs to be adapted according to the space available — and especially — the personality of its owner. “It is necessary to reconcile design with the decorative arts and create a bridge between new technologies and crafts to create something that is not too pretentious,” says Vernhes as she talks about what design means to her. Isabelle launched My Tailor Home, in partnership with Philippe Coudray with a goal to bring in a French connection to India, and be a brand that boasts haute couture designs and intricate handcrafted pieces.
